

INNOVATIVE CHECK COLLECTION SOLUTIONS

Titan provides innovative solutions to help businesses deal with bounced checks at no cost to our clients. We return the full face amount of most recovered checks. We utilize leading edge technology and modern communication tools to better communicate with consumers and achieve higher recovery rates.

Free Check Collection Program

Titan provides a free check collection solution. Check writers are charged a return check fee. Upon recovery, we return the full face amount of the check and retain the fees paid by the check writer. We work "NSF", "Account Closed", and "Refer to Maker" checks up to 4 years old.

Stop Payment Checks

Titan can even help resolve checks which have been returned due to payment being stopped by the check writer. As return check fees are not charged on these items, all work is provided at a competitive commission rate with no up-front fees.

Collection Specialists

Titan offers innovative tools like our Virtual Collector which provides customers a modern way to resolve their bounced check online 24/7. Our highly trained collectors average 10 years of experience, and our investigators have the tools to find missing debtors and their assets.

Legal Collections

When necessary, we partner with a specialized debt collection law firm. We pay all costs associated with the lawsuit, and never file without your written consent. Unpaid checks not qualified for legal action are reported to the credit bureaus and updated on a regular basis.

Reporting & Customer Service

We offer a wide array of reports and a secure webpage to access account information. Our customer service team is available for any needs you might have, and each client is assigned a personal account representative.

Fees and Agreements

Titan never charges up-front fees and there is never a fee if we fail to collect. All of our agreements offer a 30 day cancellation. The collection process on individual accounts can be cancelled immediately.
