

INNOVATIVE DEBT RECOVERY SOLUTIONS

Titan partners with businesses and organizations to create customized debt management solutions. We utilize leading edge technology and modern communication tools to better communicate with consumers. We provide detailed reports and a secure webpage to access account information.

Data Scrub

All new accounts are checked against multiple databases to obtain the most current and accurate contact information. If the customer is already in our system, the collection process is expedited based on our previous experience.

Virtual Collector

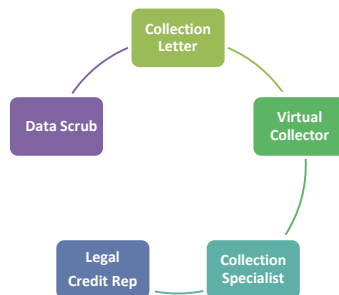

This sophisticated web-based collection tool allows customers to resolve debts in a modern, less threatening environment. The virtual collection agent can take payments, set up payment plans, and negotiate settlements, all based on client-specific rules. Customers can pay their bill online 24/7.

Collection Specialists

As an employee owned organization, staff members have a personal interest in ensuring the highest recovery rates and client satisfaction. Our collectors average 10 years of experience and are trained in the latest debt collection and credit counseling techniques. Unpaid bills are reported to the credit bureaus.

Legal Collections

When necessary, and only with your consent, Titan partners with a specialized law firm to pursue debts through the legal system. Titan pays all costs associated with the lawsuit.

INNOVATIVE DEBT RECOVERY SOLUTIONS

Customized Collection Programs

We work with each client to design and implement a customized debt management program. Clients can select the letters used in the collection campaign, the level of collection intensity, and optional credit reporting and legal action.

Reporting

Our secure web-based client portal offers real-time data on all collection activities. From collector notes, to payment information, Titan clients have complete oversight of the recovery process. Clients can add their own notes directly to the file and make special action requests.

Customer Service

Each client is assigned a dedicated account manager, and has access to our knowledgeable and friendly service team by phone and email. We also offer on-site performance reviews.

Fees and Agreements

All work is provided on a competitive flat-rate commission plan that does not increase when additional research or legal action is required. All agreements offer a 30 day cancellation at no cost. There are no start-up fees, and no hidden charges of any kind.

Compliance & Security

Titan maintains the highest level of data and privacy security. We carry all necessary insurance and licenses. Collection activities are in strict compliance with state and federal regulations including; FDCAP, HIPPA, and the California FDCPA,

Submitting Accounts

Accounts may be submitted by email, fax, mail, or we can pick them up. Accounts may be up to 4 years old and as low as \$10.00.
